Plan of Operations Agreed Upon at an All-Day Council of War at the Home of the Colonel at Oyster Bay

### CANDIDATE HIMSELF MAY BE ON GROUND

Play Another Effort Will Equitable Division of Convention Tickets

[ABSOCIATED PRESS DISPATCH] OYSTER BAY, June 1 .- The Roosevelt line of battle for the republican mapped out a campaign which it was hoped will result in the capture of the

zation, it is reported that will be forced throughout the country. It is planned to send to Chicago a week or more in advance of the convention an executive Roosevelt delegates were elected, or in which there is a contest. By this method it is expected to mobilize and drill an organization that will act as a unit.

As a part of this plan the Roosevelt delegates of the country will be canvassed as to the views concerning the temporary chairmanship, that a harmonious agreement may be reached Although Roosevelt had decided to oppose the selection of Senator Root and to ask Gevernor Hadley of Missouri to be his candidate for the place, he indicated today that he would waive his objections if it should appear wise to his supporters to reserve his fire for more important contests.

Whether the colonel will go to Chicago to lead the fight in person is now an open question. Roosevelt virtually served notice on his opponents that under etriain circumstances he might go. He said he did not intend to go "unless a grave emergency in the shape of unfair play should arise."

If unfair play may show up, he said to Robert McCormick of Chicago one of the visitors today, he might go. Two other matters were agreed upon. An effort is to be made to have the nearings before the national committee to settle contests for seats held publically and the Roosevelt supporters will Tech 1. fight to obtain what they deem an

A Subject of Discussion Among the Members of the Legislature Generated by the Slighter Warmth of Yesterday

BENSON WILL RETAIN INDUSTRIAL SCHOOL

Defeat of Removal Bill Notwithstanding the Reported Threat of Governor to Quarter Inmates in Hotels and Boarding Houses

Talk of adjournment mingled with the introduction of a considerable number of bills featured the proceedings in the legislature Saturday. Just how the introduction of bills and the possible adjournment of the lawmakers can be made to agree will be slightly at pretty nearly everything else so this

may cause no trouble Only one of the new bills mentioned was introduced in the house. This bill provides an appropriation for the pubamendments. They did considerably petter in the senate, as the following st of proposed measures will show: me for the removal of the industrial chool to a site in Graham county.

One relating to the hunting season and hunter's licenses. Another by Senator Harrison providing for payment for stock killed on railroads.

One by Roberts providing an election cope of such a bill, contains a proision relating to contests and the canassing of returns. There was also a bill by Cunniff

providing for a bureau of publicity and mmigration. The last on the list was introduced ion by the I. W. W. in the city jail, a by C. B. Wood, of this county, and re-

courts over dependent and delinquent children. The senate did not do any work this forenoon. That is to say, it did not do any work as a senate. For almost the entire time the democrats were in caucus considering the question of passing an election bill; and it was given out that a speech on the submain from injuries received in they termed a "human battleship" or ject was to be delivered by Senator Worsley, However, the afternoon wo persons were killed and many door and made an effort to break it waxed and waned and the speech was

> been delivered yet. And right here it may be mentioned that although there are three bills in the legislature in one form or another, all of which provide for elections, we seem no nearer that interesting event, or rather we seem no nearer to the first of these bills was introduced in the house several days ago by Mr. Saxon. The author, in speaking of his bill, said he did not believe an election the coming fall is demanded by the constitution but the people seemed to want it and he was in favor of passing whatever kind of legislation they desired. It will also be recalled that a joint resolution, declaring the sense of the house to be that there should be such election was introduced and speedily killed some days before,

"You may say there will be an election of state, county and precinct officers this fall according to the provisions of the constitution," a senator said to several newspaper men yesterday at noon. When pressed to say what he meant by a seemingly ambiguous statement the senator declined to go further into the matter but declared positively the election would be held. It would seem to most people if ar election is held at all it would have to be held under the constitution and the laws made in pursuance of it, or at least of laws that do not contravene its provisions; but however that may be the statement is given as made by the author and whether it has some deep and subtle meaning that only the senatorial mind can grasp remains to

This statement was made, it will be noticed, shortly after the democratic caucus had adjourned; so it would seem the senators reached some sort of conclusion, if the statement is to be taken as an index to the proceedings. But as to those proceedings the senators are as mum as several kinds of

On the other hand it was asserted by some that the caucus was not as harmonious as might have been desired since the program, as advertised in advance, was not carried out.

Then, as to the adjournment question. The house and senate don't seem to be exactly in accord on that question. In the house a motion was introduced which proposed to inform the (Continued on Page 11).
